PSL

## Petition Submitted! We did it!

**On November 20, 2025**, we submitted 324 petition sections with 2,468 signatures with El Cerrito addresses. Many thanks to the more than 50 circulators that collected signatures. A special shout out to Charles Taylor who, not only organized the circulators, he completed 65 sections with over 500 signatures. The number submitted should exceed the number needed by more than 35%. We feel very hopeful this is more than enough to exceed the 10% requirement.

## City and County to verify the signatures

**We get to enjoy the holidays.** The City and the County will use the next two months to count, compare and verify that each signature submitted belongs to a registered voter. We expect there will be up to 20% of the submitted signatures found to be invalid for any number of reasons. We anticipate the County will deliver to the City a report in mid-January. The next steps will be for the Council to receive the count and take actions to put it on a future ballot.

## YES Campaign to Start in January

**Enjoying the Holidays means your next notice from us will be January.** We will resume sending information in January. Obviously, we need to see the final signature count and wait for City Council action before we can ask you all to help get our message out. That may not be until late February, or early March. However, we can start coordinating volunteers before March. Please stay tuned and enjoy time with your families and friends.

## Please Contribute to our YES Campaign

**Thanks to all our contributors. Your contributions kept us going through signature gathering.** Now our Campaign continues! We are gearing up for the YES campaign and all of its associated costs. Your contribution today keeps our campaign alive and allows us to plan accordingly! Please consider a donation of any size!
